

JT

# Jean Berlin Tchampo

## Professional Summary

I am a storyteller that finds passion into breaking down complex problems into digestible solutions. My consultancy background combined with financial acumen add extra tools to my data analytics arsenal. I am an avid learner taking pride into honing new skills. Perceptive and logical reconciliation analyst with proven ability to communicate with both technical professionals and end users to identify and translate business requirements. Offering over 1.5 years of experience driving data accuracy and integrity. Proven ability to collaborate with talented professionals of different backgrounds to develop valuable process solutions to meet business objectives.

## Data Analysis Experience

### Nashville Software School - Data Analyst Apprentice

Nashville, TN

09/2020 - Current

- Hands on experience creating SQL and Python scripts from scratch in various projects
- Data Engineering: Design, build and launch data extraction, transformation and loading processes on model and dashboard data inputs with visualizations tools
- Leverage remote communication tools to collaborate and share work with team members via GitHub and Slack

### Floor & Decor - Reconciliation Analyst

Atlanta, Georgia

09/2019 - Current

- Reconcile CIT bank general ledger accounts, using Power Pivot, by matching up invoices issued with bank receipts and resolving balance discrepancies to keep portfolio of over 150 accounts audit-ready.
- Investigate daily variances uncovered with tender / written sales reports of over \$500K and advise commercial credit personnel on fixing tendered sales transactions at POS level with built in excel macro.
- Verify check deposits and credit card receivables using pivot tables / look ups and Oracle NetSuite with 100% accuracy.
- Designed macro based excel file to track +\$2M written sales in POS

Administration

---

## ***Data Analysis Projects***

### ***Lahman Baseball Analysis (with SQL)***

- Explored the dataset and removed unwanted columns using PostgreSQL
  - Leveraged data keys to identify players by full names and corresponding salaries per year for management purposes
  - Built multiple queries to identify the teams and parks with the top five average attendance
  - Used problem solving syntax to communicate findings with team members through master tracking in Github.
- 

## ***Professional Experience***

### **WestRock - Freight Payment & Audit Consultant**

Atlanta, Georgia

05/2018 - 09/2019

- Resolved over \$2.5M freight payment issues regarding in-process invoices with CASS system, and aged bills on legacy accounts using AS400 from portfolio of over 200 carriers
- Reviewed third party FAP providers' exception reports by plants to identify unusual trends
- Assisted audit team to collect over \$1.5M of late invoice payments and unbilled balances
- Completed audit papers by thoroughly documenting audit tests and findings.

## ***Certifications***

Exploratory Data Analysis in SQL (Datacamp)

Data Analysis in Spreadsheets (Datacamp)

Data Visualization in Spreadsheets (Datacamp)

Intermediate Python (Datacamp)
