MY JOURNEY

My road has been long and filled with many twists and turns. I spent my early career wishing to be an opera Singer when I was a Music and then Theatrical Major at Middle Tennessee State University. Life has a way of changing your course. Mine was shifted away from academia for a long time. I spent many years learning a skilled trade becoming a Journeyman Electrician and ultimately returning to the live production world with 4Wall Entertainment as the Head of the Cabling Department. I then shifted to troubleshooting various components in the Electronics Department. I specialized in maintenance and repair of equipment such as lighting control consoles (GrandMA, Chamsys, ETC, etc) and special effects equipment such as fog machines, spotlights, and other atmospheric generators. I love to learn and can most often be found embracing my autodidact nature by learning numerous things at once.

COMPUTER SKILLS

Languages

- Proficient with SQL, Python, Microsoft Excel
- Interested in C++, HTML, CSS, JavaScript

Software

- Database: pgAdmin4, PostgreSQL, Microsoft Access
- Visualizers: Microsoft PowerBI, Tableau
- Platforms: Microsoft Windows 10, Apple OS

Electronics Technician/Cable Department Lead

Nov 2017-Mar 2020

4Wall Entertainment/Acadia Management

4Wall is a leading provider of Lighting and Staging equipment to numerous large-scale touring productions.

- Led crews in the repair, maintenance, and preparation of electrical cabling for live entertainment productions. Every production must have power. We made sure it got there.
- Maintained and repaired numerous types of electronic equipment used in stage effects and lighting controls enabling said equipment to be ready and available for future rentals and sales.
- Maintained logs of repairs and maintenance of equipment and inventory of various required parts so that an accurate repair history could be kept and referred.

Journeyman Electrician/ Inventory Control Analyst

Oct 2007-Jan 2016

Stansell Electric Company

Nashville based Electrical Contractor specializing in Traffic Control Systems, DataCom and Fiber Optic Installation, and Complete Build out of Commercial and Industrial spaces.

- Performed purchasing and receiving duties such as cycle counts, writing and completing Purchase Orders, maintaining relationship with suppliers, and ensuring that stock materials were available when needed.
- Oversaw crews of varying sizes from between 2-10 on numerous projects around Middle Tennessee. Handled reading of blueprint schematics, daily work logs, and proper installation of various electrical components.
- Assisted in the Facilities Maintenance of 25,000sq.ft. warehouse, including fleet management, contractor work orders, and building maintenance.
